FEES FOR GARMENT/DEFECT ANALYSIS AND GENERAL TESTING SERVICES

The fees stated are generally per garment, article, item or fabric sample submitted, although a reduction of 50% is offered for each repeat or multiple test carried out at the same time using the same test procedure. The fees stated include the provision of a full written report that will usually explain the specific testing carried out, the test conditions used, and, where applicable, the presentation of mounted test swatches for visual inspection of results. Fees do not include the return posting of the sample/garment/item submitted for analysis or testing. All fees and the full costs of return postage must be remitted prior to carrying out testing, along with the completion of the appropriate Textile Analysis Information Form. Lower fees can be negotiated for frequent, regular or bulk analysis/testing requirements as long as appropriate criteria for lower fees can be clearly established.

1. Garment/Item Defect or Problem Analysis	\$110.00
(includes the preparation of a full written report)	
Preparation in the form of a Statutory Declaration/Affidavit – add to above	\$50.00
2. Inspection of a Garment/Item Defect or Problem	\$50.00
(includes a verbal report/opinion only)	
3. Qualitative Fibre Content Analysis	\$120.00
4. Dimensional Change (%) – to specified dry cleaning conditions	\$120.00
5. Dimensional Change (%) – to specified laundering conditions	\$120.00
6. Colourfastness – to specified dry cleaning solvent/conditions	\$120.00
7. Colourfastness – to specified laundering conditions	\$120.00
8. Colourfastness – to artificial daylight	\$120.00
9. Colourfastness – to water	\$120.00
10. Colourfastness – to perspiration	\$120.00
11. Colourfastness – to rubbing	\$120.00
12. Colourfastness – to other specified agent eg chlorine bleach	\$120.00
13. Drycleanability/Laundryability of Specific Designs/Accessories or Trims	\$100.00/solvent
14. Development of Textile Labelling Information – unless specifically quoted	\$150.00/hour
15. On-Site Examination of Item/Defect/Problem	\$150.00/hour
16. General Technical Consulting	\$150.00/hour

Any additional testing required that is not specified above can be arranged with other appropriate textile testing authorities at the applicable rates specified by the particular testing authority, plus a 5% surcharge for handling of test samples and any additional advice or explanation provided to the client about the testing carried out and/or the results obtained.
