What is TCS Textile Consultancy Services?

TCS is operated by Steven Pyott who has had 30 years' experience as a full and part time lecturer in textile science and technology in higher education institutions in both the UK and Australia. His most recent full time academic position was as a Lecturer in Textile Science and Technology at QUT, from 1981 until 1992

Steve now has almost 25 years' experience as a textile consultant to commerce and industry, the textile care industries, insurance companies and the legal profession, as well as to individual consumers

Textile Consultancy Services Offered

- Textile/Garment Problem Analysis
- Textile Labelling Advice
- Textile Testing Services
- Textile Education and Training

TCS can provide textile/garment analysis services in legal cases, insurance claims and loss adjustment and provide education and training in textiles.

TCS specialises in providing textile labelling advice, including testing, and analysing problems associated with the performance of textiles and garments during use and wear and after exposure to dry cleaning and laundering treatments.

What are Steve's qualifications in Textile Science and Technology?

Steve is an Associate of the Textile Institute (CText A.T.I.) and is therefore recognised internationally as a Chartered Textile Technologist. Steve holds the following academic qualifications from both British and Australian Universities:

- B.Sc. – Food Science, Leeds University, UK
- M.Sc. – Science and Technology in Society, Griffith University, Qld, Australia
- Grad.Cert.Ed. – TAFE Teacher Education, Leeds University, UK
- Adv.Dip.Ed. – Science Education, Brunel University, UK

What Have Been Steve's Professional Experiences in Textiles?

- Preparation of thousands of written technical reports on all aspects of textile and garment problems as a Consulting Chartered Textile Technologist
- Membership of the International Fabricare Institute (IFI) in the U.S. with access to their published material on textile/garment problems, including the TABS series of technical bulletins
- Assessor of Textile Laboratories for the National Association of Testing Authorities (NATA) - the Australian laboratory accreditation system
- Past Membership of both the Australian Standards Textile Testing Technical Committee (TX/20) and the Australian

Standards Textile Labelling Technical Committee (CS/4)

- Past Technical Officer for the Queensland Branch of the Drycleaning Industry Association (DIA)
- Past Membership of the Council of the Australian Consumers Association (ACA)

What is Steve's Professional Experience as a Textile Educator?

Thirty years experience in higher education institutions teaching Textile Science subjects for Home Economics undergraduate courses in both the UK and Australia. Most recently while at the Kelvin Grove Campus of the QUT, when it was originally the Kelvin Grove CAE, Steve was responsible for the:

- Establishment of brand new Textile Testing Laboratories within the Home Economics Department
- Development and teaching the textile science and technology units for the B.Ed./B.App.Sci. courses in Home Economics
- Development and co-ordination of an Associate Diploma Course in Textiles designed for the garment manufacturing industries, and lecturing in the textile science and technology units
